<u>COMMERCIAL ENGAGEMENT INTAKE FORM</u>

Request for Information: The U.S. commercial sector is driving technological advancements that provide our Nation and Allies a distinct advantage over our competitors and their disruptive actions that intentionally challenge our military effectiveness. USSPACECOM will continue to find ways to integrate innovative commercial capabilities into the Command's warfighting architecture to fill operational gaps, increase enterprise resiliency, and maintain the strategic advantage. *NOTE-USSPACECOM does not have acquisition authorities. USSPACECOM, if approved, can provide advocacy, endorsements, letters of support, etc. to the services (i.e. USSF) and Department of War (DoW) funding sources which could help your program receive funding.*
